SKILLS

Software QA & Testing: Functional, Regression, Smoke & Integration Testing, SIT, UAT, PVT, Test Cases & Scenarios, Defect Management (JIRA) - Proficient

Automation & Tools: Cypress, Selenium (Python), API Testing, Git - Proficient

Database, Programming, and Mark-Up Language: SQL Querying (PostgreSQL), Python, JavaScript,Java, HTML/CSS - Proficient

PROFILE

Informatics Engineering graduate with a strong foundation in Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), and Software Quality Assurance (QA) methodologies (theory and automation tools). Proficient in applying Object-Oriented Programming (OOP), procedural scripting, and Software Design Patterns across Web, Mobile, and immersive AR/VR applications. Analytical, detail-oriented, and equipped with a hands-on technical background to drive software reliability and deliver high-quality digital products.

EDUCATION

High School - SMA Negeri 1 Depok, Depok — **July 2018 - July 2021**
Natural Science

Bachelor - Universitas Brawijaya, Malang — **August 2021 - January 2026**
Informatics Engineering
GPA: 3.23/4.00

WORK/INTERNSHIP EXPERIENCE

Akademik Fakultas Ilmu Komputer Universitas Brawijaya — **Malang**
Data Management — **February 2025 - June 2025**

Managed student file and data, implementing data visualization to derive actionable insights while assisting academic staff with document administration at the Faculty of Computer Science, Universitas Brawijaya.

Lab Mobile, Game, & Multimedia Fakultas Ilmu Komputer Universitas Brawijaya — **Malang**
Lead & Augmented Reality Developer — **July 2026 - October 2026**

Managed development team, such as Web Portal, Augmented Reality Application & Website, Virtual Reality Museum, Multimedia Learning Website, and Backend & Database through Agile Software Development Life Cycle to digitalize Museum Anatomi Universitas Brawijaya, in collaboration with the Faculty of Medicine, Universitas Brawijaya.

ORGANIZATION

SOSLING KSE UB, Malang — **October 2023 - October 2025**
Staff

Coordinated and executed social outreach programs and environmental initiatives within the community.

RISTEK KSE UB, Malang — **October 2021 - October 2023**
Staff

Contributed to the planning and execution of research-based and technology-focused work programs.

Informatics Engineering Student Association, Malang — **October 2021 - December 2021**
Junior Staff

Served in the Fundraising Division, responsible for planning initiatives to generate funds for organizational activities.

IT Club, Depok — **July 2019 - July 2020**
Vice Chairman

Assisted in leading the organization and oversaw the execution of technology-related workshops and extracurricular activities.

ROHIS, Depok — **July 2018 - July 2020**
Staff

Participated in organizing religious events and spiritual development programs for students.

PASKIBRA, Depok — **July 2018 - July 2020**
Staff

Active member participating in discipline training and executing ceremonial flag-raising events.

LANGUAGE

Indonesian Native	**English** Upper Intermediate

CERTIFICATES

1. **Quality Assurance Engineer: Cypress Dari Awal Sampai Mahir**
2. **Pemrograman Web Automation dengan Python dan Selenium**
3. **Java (Basic)**
4. **Intro to UI/UX**
5. **CSS Essentials**
6. **ElevAIte with Dicoding Program**
7. **Participants of AI Webinar Series**

PROJECTS

1. Keris Visualization (Final Project)

- Analyzed user stories to define comprehensive test plans, test scenarios, and test cases for WebAR features.
- Executed functional, integration, and usability testing using the HARUS method to validate system stability and API response.
- Documented bug reports and collaborated with development logic to ensure acceptance criteria were fully met.

2. AR Augmented Reality Application & Website

Developed an AR-based application to visualize specimen collections at the Anatomy Museum of Universitas Brawijaya, delivering Level-1 medical and educational information tailored for the general public.

3. Virtual Reality Museum Tour

Implemented VR technology to build an immersive virtual museum tour experience for interactive remote exploration.

4. Multimedia Learning Website

Engineered an educational web platform to assist medical students in studying human anatomy using the museum's specimen collection, structured across 9 specialized zones (History, Musculoskeletal, Instrumenta, Vital, Respiration, Cardiovascular, Reproduction, Core, and Echo zones).

5. Web Portal

Architected the primary web portal serving as the centralized hub for all project products, featuring museum news, location guides, FAQs, and essential information regarding the Anatomy Museum FKUB.
